

Brian Athey

Senior Solutions Engineer / Solutions Consultant • PIM & DAM for Products SME • Enterprise Pre-Sales (Presales) • Agentic AI & API Integration

Austin, TX • (210) 380-1060 • brian4translations@gmail.com • linkedin.com/in/brian-athey-91337155 • Bilingual: English / Spanish

SUMMARY

Senior Solutions Engineer / Solutions Consultant with deep expertise in SaaS, Digital Asset Management, and Product Information Management (PIM), including hands-on design of agentic AI workflows connecting enterprise platforms to Model Context Protocol (MCP) servers. I design scalable workflows that connect product, marketing, IT, and e-commerce systems. I translate complex technical requirements into outcomes that reduce risk, accelerate time to market, and improve data governance.

My background spans enterprise security, cloud architecture, automation, and Agile delivery, with a focus on interoperability across platforms such as PIM, CMS, ERP, and e-commerce and marketplace channels. I bring a product-led mindset to solution design. I emphasize clarity, maintainability, and measurable business value.

CORE COMPETENCIES

Pre-Sales / Presales Solutions Engineering / Solutions Consulting • Python, JavaScript • REST APIs, API Design, Webhooks, JSON, OAuth 2.0 • Agentic AI & LLM Workflow Design (MCP, OpenAI Function Calling, Tool-Use Grounding)

Technical Discovery & Architecture • Enterprise SaaS & Cloud (AWS, Azure, GCP) • Security Reviews, RFPs, RFIs, SOC 2

Product Information Management (PIM) Subject Matter Expert • DAM, PIM, CMS, ERP, e-Commerce & Marketplace Integration (Amazon Seller Central, Shopify Admin API) • iPaaS / Middleware (Make, n8n, Celigo)

CRM & RevOps Tools: Salesforce (7+ years), Gong, Monday.com (KPI & velocity dashboards) • Agile, Scrum, PMP, Lean Six Sigma

MEDDIC / Value-Based Selling • Partner Enablement & Channel SE Support • Executive Communication (EN/ES Bilingual)

PROFESSIONAL EXPERIENCE

Canto, Senior Solutions Engineer - Feb 2025 – Present | Austin, TX (Remote)

- Ranked #1 Global SE, influencing over \$2.6M in sales across complex enterprise accounts.
- Achieved a 42% technical win rate in FQ2025, exceeding team benchmarks across enterprise opportunities.
- Serve as subject matter expert for **Canto DAM for Products (PIM)**, leading enterprise pre-sales strategy across education, banking, manufacturing, construction, CPG, and e-commerce verticals.
- Design scalable SaaS architectures using REST APIs, JavaScript, AI-powered search, metadata models, and CDN delivery pipelines.
- Own the full technical sales cycle: discovery, solution validation, POC design, RFP responses, and executive demos.
- Built a custom Gong AI Brief (SE Deal Review) that auto-generates structured deal intelligence covering technical objections, competitive signals, and post-sale handoff context. Replaced fragmented Slack threads with one repeatable process.
- Architect and demo agentic AI solutions on Canto's **DAM for Products MCP connector**, enabling Claude, Copilot, and other AI agents to query approved, governed product content in real time, extending Canto into customers' broader AI stacks.
- Own technical solutioning for Canto's Amazon Seller Central and Shopify marketplace integrations, including AI-driven listing validation and one-click Amazon submission (**Amazon Export Assistant**) and natural-language bulk attribute updates (**AI Bulk Update Assistant**); built the go-to-market enablement framework that translated commerce platform economics into discovery questions and positioning, helping Product validate market fit and giving sales a faster path to qualified opportunities.
- Built Monday.com dashboards to track SE team KPIs and initiative velocity, giving leadership real-time visibility into pipeline health and program execution.
- Stepped into a guest Product Manager role and built a full Opportunity Solution Tree to target customer churn. Ran persona-based research across five industries and translated the findings into a quantified ROI reporting concept that projected measurable time savings for customer accounts.
- Partner with Product on roadmap feedback and mentor junior Solutions Engineers on solutioning and client communication.

Canto, Solutions Engineer - Apr 2023 – Feb 2025 | Austin, TX (Remote)

- Ranked #1 Global SE for FY2024. Influenced over \$2.5M in ARR across complex enterprise accounts.
- Led RFPs and security and compliance reviews, including SOC 2, SSO/SAML, and OAuth 2.0, across multi-stakeholder discovery cycles.
- Delivered custom API-driven solutions using REST APIs, JSON, and webhook architectures for DAM, PIM, and ERP integrations.

- Built Agile-based implementation plans during sales cycles and served as an external presenter on AI and Digital Asset Management.
- Developed sales enablement tools, including AE-facing playbooks and discovery templates, that reduced cycle time.
- Managed opportunity and account data in Salesforce throughout the technical sales cycle, from discovery through close.

Canto, Implementation Manager - Feb 2022 – Apr 2023 | Austin, TX (Remote)

- Led post-sale SaaS implementations and large-scale data migrations using FTP/SFTP and AWS (S3, DynamoDB) workflows.
- Designed customer adoption strategies and identified expansion and upsell opportunities to drive net revenue retention.
- Created onboarding documentation that reduced implementation time and served as a repeatable reference architecture.

Watermark Insights, Solutions Consultant & Subject Matter Expert - Jan 2020 – Feb 2022 | Austin, TX

- Led strategy, design, and delivery of higher-ed SaaS implementations, aligning each solution with client goals and timelines.
- Taught SSO and SAML integrations between Learning Management Systems and Watermark software, and trained teams on REST API integration best practices between university Student Information Systems and Watermark platforms.
- Trained university administrators on data analytics software and consulted on assessment methodologies and best practices.
- Advocated for client needs internally and gave product feedback that shaped future development. Supported LMS platforms including Canvas, Blackboard, Moodle, and Desire2Learn.
- Tracked and managed client accounts and renewal pipeline in Salesforce.

Texas A&M International University, Adjunct Professor - Dec 2018 – Jan 2021 | Laredo, TX

- Developed and delivered undergraduate Spanish-to-English translation courses (part-time), selecting course texts and building exercises tied to real-world translation practice.
- Mentored students through virtual sessions and consistently earned top scores in student evaluations, exceeding university benchmarks for teaching effectiveness.

CONFI, Founder, Notary & Translation Services - 2020 – Present | Texas (Active)

- Founded and scaled a bilingual notary and certified translation business serving English/Spanish communities in Texas.
- Designed digital intake workflows, compliance-driven document handling, and customer journeys using SaaS automation principles.

PROJECTS

AI Career Assistant (Digital Twin Chatbot) — huggingface.co/spaces/cousinbrian/Career_Convo2

Built and deployed a Gradio-based AI career assistant on Hugging Face Spaces that uses OpenAI function calling, LinkedIn/summary context injection, and a multi-turn agent loop to answer questions in character as my digital twin. When the bot can't answer or a visitor shares contact info, it triggers record_unknown_question or record_user_details and sends me real-time Pushover notifications on my phone with the unanswered question or the visitor's email and notes so I can follow up immediately.

AWARDS & RECOGNITION

- Canto Company Value Award — "We Are Customer Obsessed" (2024): one of only four awarded company-wide per quarter; nominated by peers.
- "Wingperson of the Year" (2023): voted on by the Account Executive team in recognition of cross-functional sales partnership.
- Ranked #1 Global Solutions Engineer at Canto, FY2024 and again in current role (2025–Present).

CERTIFICATIONS

PMP® (Project Management Professional), PMI — issued 2023, exp. 2029 • PMI-ACP® (PMI Agile Certified Practitioner), PMI — issued 2025, exp. 2031 • Certified SAgile® 6 Product Owner/Product Manager, Scaled Agile — issued 2025 • Agile Product Owner • Certified Scrum Master (CSM) • Lean Six Sigma Black Belt • Pendo Admin, Pendo — issued 2025 • ChatGPT Advanced Data Analysis

AI & AGILE MICRO-CREDENTIALS — PROJECT MANAGEMENT INSTITUTE

Agile Hybrid Project Pro • Generative AI Overview for Project Managers • Data Landscape of GenAI for Project Managers • Talking to AI: Prompt Engineering for Project Managers • Agile Metrics for Success • Practical Application of Gen AI for Project Managers • AI in Agile Delivery

EDUCATION

M.A. Spanish Translation, University of Texas Rio Grande Valley

B.A. English & Comparative Literature, UT System / CUNY
